

Dr. Vinni Pietras-Jensen

Director BuildCon Ltd.

Vinni brings a wealth of experience in Corporate Social Responsibility, Sustainability Accounting & Reporting, Financial Accounting, and Strategy Development. E.g. providing CFO services to international companies like Dalekovod dd (€167mill income 2023), managing large sustainable energy and infrastructure projects.

With a background in Chartered Accounting, she has over 5 years of experience in Quality Assurance and currently provides audit and advisory services across the building and waste sectors.

Her work spans both Environmental and Social Governance (ESG), having successfully implemented board-level risk management systems, strategic planning frameworks, and sustainability-focused business plans. Notably, she was the finance and sustainability lead while building one of the most sustainable commercial laundries in the southern hemisphere, delivered under budget (approx \$40mill project), achieving an 80% carbon footprint reduction over 4 years while increasing profitability significantly.

Vinni also brings 15 years of experience serving on boards. She is a member of the Institute of Directors New Zealand and a member of various advisory boards, including The Transalpine Environmental Sustainability Governance Group (TTESGG).

While Vinni is auditing to the NZGBC Green Star Buildings NZ Construction & Demolition Waste Reporting Criteria, she is also actively participating in working groups related to developing this Criteria and its auditing guidelines.
