

Paul Barrett

Director – Sustainability by Design Ltd.

Paul has run *Sustainability by Design Ltd* for 20 years, and beyond that has over 30 years' experience helping organisations' achieve measurable success in delivering Health & Safety, Quality and Environmental projects. All toward the development and execution of sustainability strategy and corporate responsibility measures.

He has worked with a diverse range of businesses including: The Christchurch Engine Centre, Landcare Research, Christchurch City Council, Environment Canterbury, Christchurch Polytechnic (ARA), Goodman Fielder, Toyota New Zealand, Downer, Alliance Group, Mighty River Power, Antarctica New Zealand, PMP Print, Talbot Plastics, Delta, Power Co, Isaacs Construction, Tree Tech, Fonterra, Lion, Amuri Irrigation, Fisher and Paykel Health Care, Ministry for the Environment (MfE), and Ministry for Business, Innovation and Employment (MBIE) to name a few.

Paul holds a Professional Master's Degree in Environmental Management, a Post Graduate Diploma in Applied Environmental Technology, and a New Zealand Certificate in Science (Chemistry), as well as formal training in auditing. He won three environmental awards for Resource Efficiency programs he helped to develop. He has spent time as a lecturer at CPIT (ARA) in Resource Efficiency, been involved in a working group to develop NZQA framework and is the New Zealand input convener of the International Standards Organisation ISO TC 207 Review Group providing review of the Environmental Management Standard ISO 14001.

Paul is also a member of the Environment Institute of Australia and New Zealand (EIANZ), The New Zealand Institute of Safety Management (NZISM) and WasteMINZ.

Paul is success oriented and committed to achieving challenging objectives for clients, and in his 'spare time' can be found playing music and planting out his house in Lyttelton with eco sourced Native Plants.
